For Your Protection
• Do not remove the Serial Number tag from the safe.
• Never Store Override Access Keys inside safe.
• Record all Safe Identification Numbers on Safe Identification Record (page 8).
• Save this manual and NEVER keep it inside the safe.
WELCOME

Your Honeywell Steel Security Safe will provide years of safe and secure protection for your valuables, important documents and other personal items. All Honeywell safes are designed and built using the highest manufacturing standards to ensure maximum user satisfaction under a variety of conditions. With proper care, your Honeywell safe will provide “Peace of Mind” for many years to come.

Thank you and enjoy!

PACKAGE CONTENTS

The following list outlines the items and quantities of each included with your new safe. Please carefully check the list to confirm all items have been received. If any item is missing, please contact Consumer Assistance (See page 7 for contact information).

Operation Manual (1 ea.)
Override Access Keys (2 ea.)
“AA” Batteries (4 ea.)
Mounting Hardware (1 set)

Attention: DO NOT RETURN SAFE TO STORE

If you are missing parts or have difficulty operating your safe, please contact our Consumer Assistance Department by telephone. Store will not accept returned products without prior authorization. You must first contact our consumer assistance department. (See page 7 for contact information)
For your convenience, we have included 4 “AA” batteries that provide the power for the electronic locking system. These batteries must be installed before using your safe. The battery compartment is located inside the safe on the lock cover panel.

Note:
If both green and red LED’s are on, it is an indicator that the batteries are weak and must be changed immediately. The Primary and Secondary user codes will not be erased if the batteries become weak or are removed. Weak or dead batteries should be replaced immediately and all 4 batteries should be changed. To replace the batteries please follow STEPS 1 - 3. Remember to always remove batteries from safe if not using for an extended period of time. If your batteries are completely dead and you cannot open the safe by using the digital keypad, use the override access key to open safe and access the battery compartment. The use of Non-alkaline or rechargeable batteries is NOT RECOMMENDED.

INSTALL BATTERIES

For your convenience, we have included 4 “AA” batteries that provide the power for the electronic locking system. These batteries must be installed before using your safe. The battery compartment is located inside the safe on the lock cover panel.

1. Remove battery compartment cover and insert 4 “AA” batteries (included). Make sure that the batteries are installed in the correct direction with regard to polarity (+ and -). (Figure 1 & Figure 2).

2. Replace the battery cover (Figure 3).

3. Proceed to the “Testing Digital Lock” section on next page.

OVERRIDE ACCESS KEY

Your safe is equipped with an override access key which allows immediate access in case you forget your user codes or the batteries need to be installed or replaced.

1. Remove override access lock cover by gently pressing on the right edge, rotating clockwise to the right and lifting away from key lock (Figure 1).

2. Insert the override access key into the lock until it stops (Figure 2).

3. With the key inserted turn counter clockwise to the left (Figure 3).

4. Turn knob clockwise to the right and pull safe door open (Figure 4 & Figure 5).

5. Remove override access key and store it in a safe place away from the safe. Replace the cover over the key lock and proceed to “Install Batteries”.

Figure 3
Your new safe is equipped with a digital lock that can be operated with two separate user codes. You will need to program these user codes with your own 3-8 digit user codes. It is recommended that you record your new user codes and keep in a secure location away from the safe. You must program the Primary user code first. After the Primary user code is programmed and tested you can then proceed to program the Secondary user code.

TESTING DIGITAL LOCK

1. Push the safe door to the closed position and turn the knob counter clockwise to the left (Figure 1).

2. Enter the preset primary factory code “1 5 9” followed by # key into the keypad (Figure 2).

3. If the correct code is entered, the keypad will beep twice, and the green LED will light up. The knob can then be turned clockwise to the right to open (Figure 3 & 4).

NOTE: You have approximately 5 seconds to open the safe. If you wait any longer, the safe will re-lock and you must re-enter the code to open the safe.

4. To Lock, close safe door and turn knob counter clockwies to the left (Figure 5).

PROGRAMMING PRIMARY USER CODE

1. Open door using the factory preset code of 159 followed by the # key. Locate and press the red reset button located on the inside edge of the door (Figure 1).

2. The keypad will beep twice and the yellow LED will light up (Figure 2).

3. Enter a new 3-8 digit Primary user code followed by the # key. The keypad will beep twice and the yellow LED will turn off (Figure 3).

4. You can now close and lock the safe door and your new Primary user code is now active (Figure 4).
PROGRAMMING SECONDARY USER CODE

PROGRAM THE SECONDARY USER CODE

1. Open the safe using your primary user code then press the “0” twice on the keypad (Figure 1).

2. Locate and press the red reset button located on the inside edge of the door (Figure 2).

3. The keypad will beep three times and the yellow LED will light up (Figure 3).

4. Enter a new 3-8 digit Secondary user code followed by the # key. The keypad will beep twice and the yellow LED will turn off (Figure 4).

5. You can now close and lock the safe door and your new Secondary user code is now active.

TESTING CODES

1. Enter the primary user code followed by the # key into the keypad (Figure 1 & figure 2).

2. If the correct code is entered, the keypad will beep twice, and the green LED will light up the knob can then be turned clockwise to the right to open. NOTE: You have approximately 5 seconds to open the safe. If you wait any longer, the safe will re-lock and you will have to reenter the code to open (Figure 3).

To Lock, close safe door and turn knob counter clockwise to the left (Figure 3).

Note:
To test the secondary user code, you can follow the same steps by entering the secondary user code instead of the primary user code in Step 2.
SECURE LOCKOUT PERIOD

If the wrong user code is entered into the keypad 3 consecutive times in a row, the keypad will automatically revert to the lockout mode and you will not be able to open the safe using the digital keypad for 20 seconds. If three additional wrong user codes are entered, you will not be able to open the safe using the digital keypad for 5 minutes. During the lockout period entry can be made using the override access key.

LOST OR FORGOTTEN USER CODES

LOSS OF BOTH PRIMARY AND SECONDARY USER CODES

If both the Primary user code and Secondary user codes are lost, you may open the safe using the Override Access key and use the red user code reset button to reprogram the 3-8 digit primary user code or secondary user code.

The instructions for opening the safe with the override access key are located on page 2.

CARE AND MAINTENANCE

When properly maintained, your safe will continue to operate for many years. In order to ensure optimum performance of your safe, please follow these simple precautions:

CLEAN HANDS - Never attempt to operate the digital keypad if your hands have excessive dirt, debris or liquids on them.

CLEAN SAFE – To clean the surface of your safe, it is recommended that you use a mild cleaner (e.g., window cleaner) to avoid scratching or discoloring the surface. Always wipe dry and NEVER use abrasive cleansers on the safe or digital keypad.

MOISTURE – We recommend that you place delicate items such as pictures or intricate jewelry into an air-tight container before storing them in your safe. Avoid placing your safe in areas of high humidity. For optimum performance, the safe should be opened and aired out for at least 20 minutes every two weeks.

For future reference, store this Operation and Installation Guide in a secure area away from the safe. DO NOT DISCARD!
You may bolt your safe to a shelf / floor for added theft protection and resistance to tipping. Your safe has (2) pre-drilled bolt-down holes in the floor panel. (2) Mounting screws are provided for securing to wood surfaces. If bolting to concrete or metal additional hardware will be needed. Check with your local home center.

**To secure your safe to a wood shelf / floor:**
1. Select a suitable and convenient location for your safe.
2. Empty the safe and remove the carpet.
3. Locate the pre-drilled holes on the inside of safe.
4. Place your safe in the desired location.
5. Line up the pre-drilled holes and mark the Shelf / floor through the holes.
6. Move the safe aside to clear marked spots for drilling.
7. Drill 2 pilot holes using a 1/8" drill bit.
8. Place the safe back over the holes and secure in place using 2 wood screws (provided).
9. Once completed, replace the carpet.

**NOTE:** Bolting/unbolting of the unit is at the consumer's expense and discretion. LH Licensed Products is not responsible for any costs incurred if the unit is to be replaced.

If you have any questions about mounting the safe, please check with your local home center/ hardware retailer or independent contractor.

LH Licensed Products, Inc., (“LHLP, Inc.”) warrants that for a period of seven (7) years from the date of purchase, this product will be free from structural or mechanical defects resulting from materials or workmanship. LHLP, Inc., at its sole option and as the purchaser's sole remedy under this warranty, will repair or replace this product or any component of the product found to be defective during the warranty period. Replacement or repair will be made with a new or remanufactured product or component. If the product is no longer available, replacement may be made with a similar product of equal or greater value.

THIS IS YOUR EXCLUSIVE WARRANTY.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

This warranty is only valid for the original retail purchaser from the date of initial retail purchase and is not transferable. You must keep the original sales receipt. Proof of purchase is required to obtain warranty service.

LHLP, Inc. dealers, service centers, or retail stores selling this product do not have the right to alter, modify or in any way change the terms and conditions of this warranty.

This warranty does not apply to the finish on the product. This warranty does not cover normal wear and tear of parts or damage resulting from any of the following: negligent use or misuse of the product, use contrary to the operating instructions, disassembly, repair or alteration by anyone other than LHLP, Inc. or an authorized service center, improper installation, or exposure to extremes of heat or humidity. Further, the warranty does not cover Acts of God, such as fire, flood, earthquakes, hurricanes and tornadoes.

LHLP, Inc. shall not be liable for any incidental or consequential damages caused by the breach of any express or implied warranty or otherwise relating to the sale of this product. LHLP, Inc. is also not responsible for: costs associated with removing or installing the product; damage or loss of the contents of the product; nor for the unauthorized removal of the contents; or damages incurred during shipment.

THE ABOVE WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, AND LHLP, INC. DISCLAIMS ANY AND ALL OTHER COVENANTS AND WARRANTIES.

Except to the extent prohibited by applicable law, any implied warranty of merchantability or fitness for a particular purpose is limited in duration to the duration of the above warranty period. Some states, provinces or jurisdictions do not allow the exclusion or limitation of incidental or consequential damages or limitations on how long an implied warranty lasts, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights that vary from state to state, or province to province, or jurisdiction to jurisdiction.
